FUSE WOOD FLOORING

Product

Collection	Vintage Edition
Name	Indigo
Style	Plank
Finish	Matte Lacquer
Surface	Aged

Construction

Type	Engineered hardwood
Layers	2-layer
Edge	No bevel
Connection	Tongue and groove
Dimensions	11 x 130 x 1450 mm

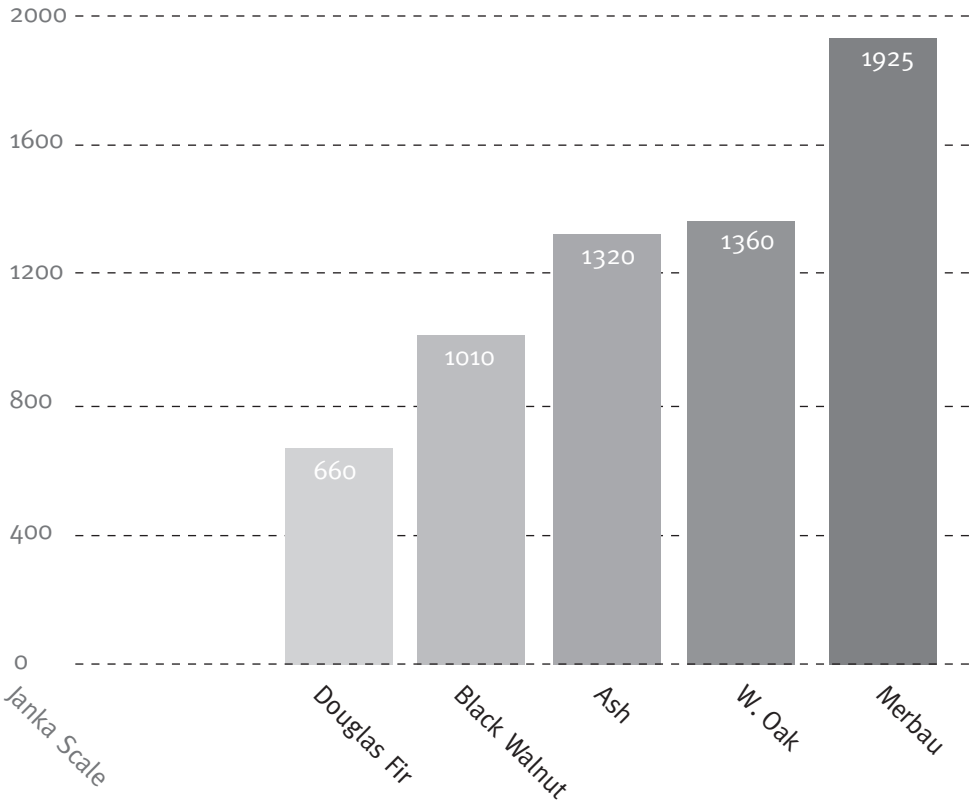
Wood

Species	White Oak
Treatment	Vintage look
Grade	Clear
Cut	Flatsawn
Hardness	1360 (Janka scale*)
Colour change	Slight darkening

Layers

Lamella Material	White Oak
Thickness	4 mm
Core Material	White Oak
Thickness	7 mm
Backing	None

Relative wood hardness



FUSE WOOD FLOORING

Notes

Wood colour variation

All wooden floors have natural colour variation. Untreated floors will have some colour variation, depending on the species. Stained floors generally have less colour variation. Smoked floors have more colour variation. Please be aware of the amount of variation to expect by looking at the ‘wood - treatment’ section, or contact a sales representative for pictures and futher information.

Wood colour change

Wood changes colour when exposed to sunlight. This process is called ‘oxidization’ and happens over a period of several months to several years, depending on the species. Different species will change different colours over different periods of time. Note that certain finishes also oxidize and this colour change is in addition to the wood’s oxidization.

Wood hardness

The Jenka hardness scale is determined by the amount of force required to embed an 11 mm steel ball half-way into the wood. A higher rating is a harder wood. Note that this does not indicate a product’s resistance to scratching, just denting.
